About the Company

Get to know us.

Star Construction serves as a trusted partner for both government and private sector infrastructure projects. Our team of experienced professionals leverages modern construction methodologies to deliver resilient, compliant, and cost-efficient solutions. Grounded in a culture of safety and excellence, we pride ourselves on our ability to meet rigorous project timelines without compromising on quality.

“ Excellence on every project, completed on time and in full compliance. ”

Sougata Neogi

Proprietor

Our Vision

We aim to expand our footprint across the government and private sectors, continuing to deliver projects synonymous with excellence and reliability. We aim to foster long-term relationships and trust within our communities, ultimately shaping a brighter, more prosperous future for West Bengal and its residents.

Our Services

THE CORE EXPERTISE AREAS

BUILDING CONSTRUCTION

Residential, commercial, and government construction with high-quality materials and engineering standards.

STEEL STRUCTURE WORK

Fabrication and erection of steel structures for industrial, commercial, and institutional projects.

ROAD CONSTRUCTION

Construction of durable and high-performance roads as per government specifications.

CULVERT CONSTRUCTION

Design and construction of culverts for efficient water flow and road safety.

DRAIN WITH COVER

Construction of covered drainage systems for urban and rural infrastructure development.

ELECTRICAL WORK (GOVT. PROJECTS)

Execution of electrical installation and maintenance works under government contracts.

SURVEYING

We perform precise measurement and mapping by ensuring accuracy through multiple independent measurements.

Our Commitment

We pride ourselves on being a reliable partner in infrastructure development. By merging modern techniques with a steadfast focus on safety and compliance, Star Construction turns complex blueprints into lasting reality.
